

“

I still remember 2003 when I first came to your Dahisar plant, saw your innovation and at that time you used to make Spermfuge, you used to make heating blocks which nobody made in the country.

You don't only support us. You are a part of us.

You want to make a difference and you really want to serve through us, the Infertile couple. The only thing which matters is Fertility Champions. And you are a part of the whole team across the country.

”
